

## **Class PathMetrics**

# Table of contents

Class Documentation

---

- Defined in [File dataflow\\_tracker.hpp](#)

## Class Documentation

class PathMetrics

Public Functions

inline PathMetrics()

uint64\_t get\_buffer\_size()

Public Members

std::string path

std::unordered\_map<[DataFlowMetric](#), double> metrics

std::queue<double> latency\_buffer

uint64\_t num\_skipped\_messages
