Modules Loading and Unloading

Adapter Cards	Modules
ConnectX-3/ConnectX-3	mlx4_en, mlx4_core, mlx4_ib
ConnectX-4 and above	mlx5_core, mlx5_ib

To unload the driver, first unload `mlx*_en/mlx*_ib` and then the `mlx*_core` module.

To load and unload the modules, use the commands below:

- Loading the driver: modprobe <module name>

  ```
  # modprobe mlx5_ib
  ```

- Unloading the driver: modprobe –r <module name>

  ```
  # modprobe –r mlx5_ib
  ```
