

Email

SMTP configuration is required to set both the [Daily Reports Tab](#) and the Email-on-Events features.

1. In the SMTP Configuration dialogue window, enter the following information:

The screenshot shows a 'Settings' window with a tabbed interface. The 'SMTP Configurations' tab is active. It contains several input fields: 'SMTP Server' (placeholder: SMTP Server IP OR Hostname), 'SMTP Port' (value: 25), 'Sender Name' (placeholder: 4-20 characters - letters, numbers and whitespaces), 'Sender Address' (placeholder: Sender address), and 'Timezone' (dropdown menu showing 'Server Time (UTC)'). There are also checkboxes for 'Use Authentication' and 'Use SSL', both of which are currently unchecked. Below these are two password fields for 'Username' and 'Password'. At the bottom right of the configuration area are three buttons: 'Send Test Email', 'Revert', and 'Save'.

| Attribute | Description |
|-------------|--|
| SMTP Server | The IP or host name of the SMTP server. Examples: <ul style="list-style-type: none">◦ If mail service is installed, localhost is a valid value for this field, but usually it cannot send mails outside the local domain.◦ smtp.gmail.com |
| SMTP Port | Default value – 25 |
| Sender Name | The name that will be displayed in the email header |

| Attribute | Description |
|--------------------|--|
| Sender Address | A valid email address that will be displayed in the email header |
| Time Zone | The default time zone for receiving sent emails is the server time zone. Users have the option to specify a different preferable time zone |
| Use Authentication | By default, this field is unchecked. If checked, you must supply a username and password in the respective fields |
| Use SSL | Default value is false – not using SSL |
| Username | SMTP account username |
| Password | SMTP account password |

2. Click "Save." All configuration of the SMTP server will be saved in the UFM Database.

Click "Send Test Email" to test the configuration and the following model will appear:

The image shows a 'Send Test Email' dialog box with a title bar containing a close button (X). The dialog has three main input sections: 'Recipients' with a text area containing the placeholder 'comma separated email addresses list', 'Subject' with a text field containing 'UFM Test Email', and 'Message' with a text area containing the text 'Receiving this email means that your UFM SMTP configurations is correct.' At the bottom right of the dialog are two buttons: 'Close' and 'Send'.

| Attribute | Description |
|------------|--|
| Recipients | User can choose email from event policy and daily report recipients or enter any email |
| Subject | Email subject |
| Message | Email message |

The System Health window enables running and viewing reports and logs for monitoring and analyzing UFM server and fabric health through the following tabs: UFM Health, UFM Logs, UFM Snapshot, Fabric Health, Daily Reports and Topology Compare.
