

# NVIDIA Mission Control Customer Enablement Resources

At this time all NVL72 end customer deployments are highly recommended to use NVIS for their deployment of Mission Control Stack. The NVIS team provides comprehensive deployment of the software with validation of both the hardware and software.

## Software Package Details:

| NVIDIA Mission Control 1.2 General Availability (GA) |  |          |
|--|--|----------|
| Software Component                                   | Download System                                    | Version  |
| NVIDIA Base Command Manager (BCM)                    | <a href="#">Base Command Manager Download site</a> | 11.25.05 |
| NVIDIA Base Command Manager Image with DGX OS        | <a href="#">Base Command Manager Download site</a> | 7.1      |

|   |   |  |
